

Supplier application

SECKLER AG is a global, Swiss-based manufacturer of individually designed automation systems in the field of handling technology. Our main activity is the development and manufacture of fully automated machines to mass-produce high-precision components, especially in dirty and wet environments.

SECKLER AG markets its products with competitive prices and is therefore forced to develop and implement, together with its suppliers, cost-efficient solutions; taking in consideration the demanding performance-, quality- and schedule requirements.

Are you interested to work together with SECKLER AG?

Please check first the minimum required standards*:

- + You work with a quality management system referring to DIN ISO 9000 ff standards.
- + With your flexibility, you can manage challenges regarding on-time deliveries with short-term delivery orders and fluctuations in quantity requirements.
- + SECKLER AG is ordering commodity and special drawing parts in single and small quantities (one up to until five pieces, **no mass production**) mainly in the Swiss and European market.
- + The pricing is transparent and competitive to the industrial standard.
- + Purchasing currency exclusive Euro, Swiss Franc and US-Dollar.
- + Shipping terms exclusive DDP or DAP referring to our actually Incoterms (indications see on our purchasing orders), including packaging, transport, toll taxes and insurances; no further additional costs!
- + Payment terms exclusive 30 days with 2 % discount or 60 days net or special terms (only with agreement).
- + Correct declaration of the custom-tariff number and of origin of goods including the declaration proof of origin referring to valid laws and standards.
- + Environment: The required laws and standards must be strictly followed.

* SECKLER terms and conditions of purchasing: Please ask for the complete SECKLER terms and conditions of purchasing (at the moment only available in German). In case of cooperation between your company and SECKLER, the terms of purchasing must be approved and agreed.

We would like to know further information about your company. Please fill out the following questionnaire and send it to
